

2nd GraWIToN School

GW Initial Training Network

Second GraWIToN School - 1st DAS school

Monday 09 November 2015 - Friday 13 November 2015

GSSI - Gran Sasso Science Institute

Conference Scientific Programme

General and introductory aspects of Data Analysis

General aspects of data analysis, physics and big data handling

Noise

Extraction of signal from noise.

Transients

Burst and transient analysis in GW detectors

CBC

Coalescing binaries analysis

EM follow-up

Multi-messenger analysis
