

7th Einstein Telescope Symposium: 'the first joint ET-LIGO 3G meeting'

Tuesday 02 February 2016 - Wednesday 03 February 2016

Florence

Conference Scientific Programme

Global Scenario

Analysis of the science targets of a 3G observatory and/or network.
Definition of the requirements for a 3G observatory. Costs of the future infrastructures

Roadmapping

How to arrive to a network of 3G observatories? What is the correct timing? What will be our financial strategy? Do we need a global R strategy? How to collaborate in order to achieve our targets?

Technologies

Presentation and discussion of the enabling technologies for a 3G observatory
