

7th Einstein Telescope Symposium: 'the first joint ET-LIGO 3G meeting'

Contribution ID : 22

Funding large science projects

Wednesday 03 Feb 2016 at 11:25 (00h20')

Content :

- a) what funding avenues exist for ~1BN scale projects?
- b) what recent examples do we have to help us form successful proposals?
- c) funding - how and when to decide on a global 3rd gen. scenery? We will need a good understanding of options and probability of funding levels. How to deal with the uncertainty?
- d) what near-term activities should be put in motion from the standpoint of strategy?
- e) what are the next actions in this domain?
